Career Objective:

Frontend Engineer and Team Lead with 4+ years of experience building production-grade web applications using React, Next.js, and TypeScript. Experienced in frontend architecture, performance optimization, reusable component systems, and leading frontend teams across SaaS, e-commerce, CRM, admin platforms, and marketing websites. Currently leading a team of 4+ engineers at Expert Squad and contributing to the development of the company's highest-grossing product.

Professional Experience:

Career Objective **Expert Squad**

Frontend Team Lead | Jan 2023 – Present

- Led 4+ frontend engineers across SaaS and e-commerce products, owning architecture, code reviews, technical decisions, and delivery.
- Led frontend delivery of BD Commerce, the company's highest-grossing product.
- Contributed to technical hiring, interviews, and engineering evaluation.

Key Achievements:

- **Led 4+ frontend engineers** across production SaaS and e-commerce products.
- **Led delivery of BD Commerce**, the company's highest-grossing product.
- **Top Employee Award — 2026**, recognizing engineering contribution and delivery.
- **BD Commerce Partnership Recognition** for long-term technical contribution.

Projects:

BD Commerce – A Complete Ecommerce Solution

[Live Link](#)

A multi-currency commerce platform connecting online storefronts and offline sales through unified POS, inventory, supplier, order, and administrative workflows.

- Built frontend architecture for complex e-commerce and business-management workflows.
- Implemented dynamic currency and country management, POS synchronization, inventory, supplier, and stock operations.
- Led frontend delivery of the company's highest-grossing product.

LallaGo Super Admin — Ride-Sharing Operations & Analytics Platform

[Live Link](#)

A centralized administrative platform for managing rides, drivers, partners, corporate clients, and operational analytics across the LallaGo ecosystem.

- Built responsive management dashboards and operational workflows.
- Implemented data visualization and analytics interfaces using Recharts.
- Structured reusable components for scalable administration features.

DealsPapa — Coupon & Deals Platform

[Live Link](#)

A full-stack coupon and deals platform for the Middle Eastern market, combining customer-facing offers with administrative management.

- Developed customer-facing coupon and promotional interfaces with REST API integration.
- Built and integrated administrative workflows for platform and content management.

Expert Squad — Portfolio Website

[Live Link](#)

A high-performance agency website showcasing services and case studies through responsive layouts, modular architecture, and fluid interactions.

- Built reusable React components and Framer Motion interactions for a polished responsive experience.
- Focused on maintainable architecture and high-performance frontend implementation.
